# MORZINE AVORIAZ.

Portes du  Soleil

## Morzine. authentic charm with a touch of adrenaline

Morzine is a beautiful Alpine village at the heart of the Portes du Soleil area, offering visitors an authentic mountain experience and access to 600 km of skiing. With a rich history, heritage, traditional architecture, and boasting an enviable gastronomy scene, Morzine has all the necessary ingredients for the perfect holiday on skis or a snowboard.

Located between Mont-Blanc and Lake Lemman (lake Geneva), Morzine is also a cultural crossroads between France and Switzerland, two countries steeped in mountain tradition. And at around an hour's drive from Geneva, Morzine is incredibly easy to access, making it the perfect place for a winter getaway.

### - new - Hotel Névé Family friendly hotel completes renovation

The delightful three-star Le Névé hotel is set to re-open in mid-December after more than eight months of renovation works. Created in 1961 by Solange & Claude, the property has 37 rooms, all of which have been updated in a retro-modern theme, allowing guests to relax in comfort and style. Ideally suited for families, the hotel is situated close to the pistes and offers easy access to the resort centre. To while away an evening after skiing, there's a well-being centre with a pool, hammam, sauna and gym. There is also a new cinema room, a games rooms for kids and a bar area with a pool table and darts. The friendly staff are proud of the hotel's history and offer holidaymakers a true 360° guest experience.

### - new - A stunning new red piste!

The remodelling of the red Aigle run going from the summit of Nyon at 2019 metres down to the Nyon plateau at 1413m is now completed. The run is 3 times wider with 2km of skiing pleasure!

**Pascal Duvillier,**  
Head of Piste safety,  
Morzine ski area:

*In my lifetime, I've had the opportunity to ski throughout France and even abroad. However, my heart brought me to settle in the Haute-Savoie in a resort that felt right for me. Here, the discovery of the mountain and of winter sports is done as a family and over several generations. The ski area, divided into two sectors, allows beginners to learn safely on Pléney and gives experienced skiers the chance to get their thrills on Nyon & Chamossière. The most demanding will find what they're after on the l'Aigle Rouge & the Arbis pistes, as well as the freeride space. The snow conditions are often ideal and our facilities ensure the ski runs down to the village are open throughout the season. We are continually innovating to expand our offer, such as the touring routes created last year when lifts were closed due to Covid, and the development of extra activities in the Nyon area over the last few years. A famous slogan in France says that if you visit, the mountains will win you over! It's Morzine that won my heart!*

### - new - Have fun in the new Eagle Park

The Eagle Park on the Nyon slopes will be completely remodelled for winter 21-22. In this ski area the more adventurous will be able to test the new XL boarder cross starting from the top of the Raverettes chair. The reshaped and enlarged snow park will offer some new features. In order to use less artificial snow, the features will be created and shaped from an earth base. Air and excitement guaranteed!

### - new - A new fast chairlift, the Belvédère

The Bélvédère chairlift has undergone major upgrade works, with a new, high-speed six-seater design replacing the old four-seater, fixed clamp version. Supported by eight brand new pylons, the improved chairlift will be able to transport up to 2,800 people per hour when it re-opens this winter. Providing greater safety and comfort, the improved Bélvédère will offer faster access to the beginner area, as well as to the more demanding pistes at Chamossière and the fun space at the Pointe de Nyon. What's more, the departure station will have a grass covered roof, integrating it perfectly into the surrounding area.

### - new - Le Pas de l'Aigle: viewing platform with excitement guaranteed!

Last winter a new viewing platform was installed at the summit of nearby Pointe de Nyon, and because of Covid-19 restrictions, it will now open to the general public this winter. At an altitude of 2,019m, the new 10m long glass walkway is called Le Pas de l'Aigle, and can be easily accessed by skiers and snowboarders of all abilities. The attraction features a 350m drop beneath visitors' feet and a breathtaking 360° view from Lake Geneva to Mont Blanc.

Price: Free (with ski pass)

More info: Access is free and only possible on skis from the top of the Nyon chairlift.

# Meet the people that make Morzine

## Guillaume Bron, for the love of wood and skiing

The Bron family share something in common with the wood they have been working on for three generations: solid local roots. Guillaume, a craftsman joiner and carpenter, is the head of Bout de Bois, a local craft enterprise manufacturing completely customisable wooden skis, offering the charm of a completely hand-crafted product catering to the slightest whim of his clients. The scent of the local ash that populates our valleys along with the expertise of this man of the mountains and ski instructor, whisks visitors into an atmosphere like no other, where time seems to stand still.

## Nicolas Baud, an abundance of gourmet treats!

Since 1996 La Fruitière de Morzine has welcomed gourmet cheese lovers, passing holidaymakers and locals alike, though you wouldn't necessarily guess so from the name. From traditional tomme via reblochon or abondance, Nicolas Baud loves to produce quality cheeses respecting the PDO label, but he is even more enthusiastic about introducing people to lesser known products such as the raclette made on the premises or the mature Nyon cheese with its unusual tangy flavour. For the curious amongst you, there are guided tours of la Fruitière during which Nicolas and his team will explain the key steps in the production of cheese. A visit that will tickle even the most demanding of taste buds!

Price: Free guided tours on Wednesday and Thursday mornings from 9am.  
Unaccompanied visits every afternoon between 3pm and 7pm.

## Alex Bailey Staines all aboard for an olfactory journey

From a long line of perfumers, Alex Bailey Staines quickly followed in her father's footsteps by opening her own practice offering fragrance advice and expertise to companies. Her crowning achievement came when one of her clients, in collaboration with the Société Grassoise de Parfumerie, designed a signature candle for Chalet Fourmilière. It is a real source of pride for Alex to welcome guests to the old, modest farmhouse, which has been completely transformed, combining the contemporary with the traditional, suffused with an original bouquet of scents directly inspired by the place.

## Jacques-Olivier Travers the eagle has landed

Some people decide from a young age to dedicate their lives to a cause. Jacques-Olivier Travers is one of them. At 14, he decided to become a professional falconer and, ten years later, founded the Aigles du Léman park. As it is only open during the summer, for winter, he has created a truly unique concept: skiing with eagles. This original and world first idea takes form on the Nyon plateau at 1413 metres altitude, sometimes within the restaurant, if not on the terrace or even on the slopes. Whether you are passionate about falconry or a beginner skier, we defy you not to be captivated by this ballet on wings, playing out on the air currents above and swooping over the amazed faces of watching holidaymakers.

## Where the Haute-Savoie is your playground

### - new - Fun informative trail

There is a new fun trail for snowshoeing on the Nyon plateau, allowing the young, and not so young, to learn all the secrets of the local wildlife from its information panels. Afterwards they can enjoy the fun of sliding on the sledging piste next to it. Something for everyone!

### - Not to be missed - Falconry mornings

A unique opportunity to practice the art of falconry in an exceptional environment! Reception is at 10am with a hot drink by the fire in a beautiful chalet at Nyon. The falconers introduce their hiker apprentices to the equipment and activity: leather gloves, specific gestures and commands. Next it's time to participate in weighing the birds. Then the action begins. A 45 min snowshoe hike on the wild plateau of Nyon with a bird on your arm! Afterwards, hikers will be able to admire the majestic birds of prey with a flight demonstration in the mountains.

Info: The courses are upon reservation - maximum of 4 people  
Price: €75 per person - Duration: 1 hour

### Mini falconers: educational outing with the eagles!

For 45 minutes children will be able to get up close and personal with these exceptional birds that they usually only meet in storybooks: the White Owl, the Great Horned Owl, Eagles, Buzzards, Vultures... The falconer will pass on their knowledge and all the secrets of the birds of prey to the children in the form of games... Then they can watch with awe at the splendour of the birds during a flight demonstration overhead!

Price: €7 per person, minimum of 20 participants.

### - Not to be missed - A powder ski tour beneath the stars

Ski touring is a discipline, which has crossed the line from a sport to become a social activity. This once exclusive activity has attracted more and more enthusiasts looking for a true mountain experience. In Morzine, this experience is also available at night! In a truly unique setting, feel the freedom in the soothing silence of a mountain evening, where holidaymakers can experience the ski domain from a whole new perspective. Magical!

Price: €50 per person Minimum 4 persons Every Thursday from 5.30pm to 7.30pm. Equipment rental available at preferential rates from ESF.

### Live the life of a ski patroller for a day and have the whole ski area to yourselves

You're sure to feel the call of the wild going out in the wee small hours to accompany the ski patrol as they do their round of checks before opening the ski area while the rest of the resort slumbers on. Lucky participants will be the first to ski the perfectly groomed pistes. The pleasure of making first lines and discovering the work of the ski patrol is a great way of understanding both the beauty and the dangers of this environment! Make tracks for a fulfilling morning!

More info: Once a week during the season. Leaving at 8am  
Price: Free - sign up at the Tourist Office

### Spotlight on ALAIN PREMAT

By the light of their head torches during a nighttime ski tour, skiers will be led by Alain Premat, renowned ski mountaineer and former member of the French ski mountaineering team as well as the record holder for the famous "haute route" between Chamonix and Zermatt, which he completed in 18 hours 50 minutes. This true child of Morzine will share his exceptional knowledge and recount his skiing exploits such as the tale of the 16th and 17th March 2010 when, with his brother Jean François and local friend Sébastien Baud (also a ski instructor with ESF in Morzine), they managed to ski from Lake Geneva to the summit of Mont Blanc in 23 hours, a record which still stands!

These days Alain works with ESF in Morzine and shares his experience not only with his clients on ski tours and off-piste ski adventures but also in his group lessons for children!

Ski mountaineering will be a new discipline at the Milan Olympic Games in 2026. So now is the time for the next generation of champions to benefit from Alain's advice as they get ready to conquer the summits...of Olympus!

## An avalanche of micro-adventures

### Mine d'Or Experiences: good cheer aplenty

The winter of 2020/21 and the health crisis have meant Morzine has had to innovate and think out of the box in terms of the activities and experiences it has to offer. Due to the closure of the lifts, locals created a Nordic-style area in the Vallee de la Manche. This wild setting far from the nearest lifts is the perfect backdrop for walks and making fantastic new family memories, so will remain in place for winter 21-22 and beyond! The area is equipped with an info point, a cross-country ski circuit, a snow playground, a picnic area, a sledging slope and even an igloo! A little corner of paradise for tourists and locals alike which became the official main supplier of smiles and gales of laughter.

### - Not to be missed - Randonnée nocturne et soirée en igloo

Who hasn't dreamed of being a trapper for a night and living as close as possible to nature?

After a walk through a beautifully preserved setting, intrepid explorers can enjoy a drink and a meal in an igloo. Two options are available for the rest of the night: return to the resort by the light of a head torch or spend a night in the igloo with the luxury of breakfast included to top off the experience.

Price: Aperitif €35 per person, dinner €49 per person, night from €350 for 2 people

# A destination committed to the future

## Wildlife and nature are at the heart of Morzine's concerns:

- Two protected zones for mountain birds, such as the Tétraz Lyre, have been identified on the Morzine ski area, now an impressive biodiversity observatory site. €20 000 has been invested in the necessary works to help protect and develop this important species.
- What's more, all ski lift cables are equipped with markers approximately every 5 metres on the portions listed as potentially dangerous.
- In collaboration with the Forestry Commission, any tree felling carried out in the ski area is accounted for. Compensatory measures are put in place and local species of trees are replanted in areas of the Chablais that need reforestation.
- All earthworks carried out on pistes are systematically compensated for by revegetation with grasses suited to the mountain environment, using seeds developed by local farmers and that are perfectly suited to the livestock grazing in the area.
- An awareness campaign is on the slopes informing visitors of the best environmental behaviours to adopt within the ski area and on walking trails.
- The Morzine & Avoriaz ski areas are equipped with less polluting piste grooming machines. The machines run on non-toxic, biodegradable GTL fuel as opposed to the off-road winter diesel used by traditional piste bashers. They are quiet and consume less fuel. The piste grooming machines are equipped with snowsat: a software program that limits energy consumption and manages the snow stocks. The Snowsat software uses a GPS to give a very precise measurement of the depth of the snow to enable better usage of the natural snow and to ensure only the minimum quantity of artificial snow needs to be produced.

## Awarded the respected Flocon Vert For more sustainable mountain tourism

Morzine has been jointly awarded the Flocon Vert sustainability label with neighbouring Avoriaz. The accolade, which is awarded by the European organisation Mountain Riders, recognises destinations that demonstrate a commitment to a sustainable development policy. To date, only eight other destinations have been awarded the Flocon Vert label since its inception in 2011. The label is issued based on compliance with 20 criteria divided into four themes: local economy, social & cultural, governance & destination, and environment & natural resources. The two tourist offices worked together with local stakeholders to put into place a new joint strategy for sustainable development. The plan set out several ambitious initiatives, including changes to the urban planning process, the introduction of greener public transport systems, the creation of new pedestrian areas, traffic reduction measures, actions to help local business become greener, the improvement of walking and cycling routes, and a commitment to reduce the amount of waste created. It is with excitement and pride that the label has now been awarded in recognition of these efforts, which will continue in earnest and evolve in the years and decades ahead.

## - new - AliKats,

a premium provider of catered chalets and apartments with conciergerie service, has always had the environment at the heart of its business. A new road map has just been published to show how they will move to net zero carbon emissions by summer 2022. They want to go above and beyond as an example of how to work against climate change and for environmental protection. AliKats decided to share their method to become climate neutral in the hope more local businesses will be inspired to do the same.
